ABS Marine Valve Certificates
-TPI WITNESSED TESTING certification of body and nozzle. Certificate to
include impact test with tpi witness per ASME VIII UG-84 AT-196C, 3 test
per heat, average 41 joules. TPI IS ABS
- Radiography of critical sections of each MV body casting
- Liquid penetrant testing of all exterior and accessible interior
surfaces of MV body casting
- Pickling/passivation of MV body at foundry or foundry certification
that only SS shot used and equipment used on this order is used only on
SS products (pickling can be done at AGC IF 2e requirements were missed
at the foundry)
- 316L cap and coupling
- A193 B8M CLASS II MV cap bolts
- A193 B8M CLASS II/A198 8M INLET studs / nuts
- All 319SS external parts (including nameplate)
- 316 SS pilot bracket
- Hydrostatic test with deionized water Hold time=3min
- Cryogenic test of one per size and type per 05-9005-243 10 cycles
actuation -160C at thermocouple
- Flange facing to be standard RFSF (63-125RA)
- Paining not applicable
- Nameplates to be in metric units, mbarg of set pressure and Nm3/hr for
capacity
- Source inspection by ABS
- Large pilot cases

***** IMPORTANT NOTICE *****
The order should be packed in two sets, each set will consist with one
of each ordered item. Please confirm.

Prior to delivery please advise weight and dimensions in order to
provide exact delivery instructions.

Your invoice should be billing :
